

RECIPE Oxblood Paint

100 liters	cow blood (i.e. on Monday),
30 liters	serum skimmed of the cow blood (on Thursday)
1/4 liter	Clove Oil (73700) is added to avoid spoiling
26 kg	Slaked Lime (31800)
5 kg	natural Iron Oxide (48600)
3 liters	lime water
100 ml	Defoamer (78600)

are mixed together, and then

5 liters **Linseed Oil** (73100) are added.

Oxblood Paint according to Wengerter

4 Berliner Quarts	blood serum (1 Berliner Quart = 1.145 liter)
8 pounds	lime
1 kilogram	pigment (red iron oxide pigment)
And	
10 %	linseed oil

You can obtain cow blood from the slaughterhouse.

We don't produce Oxblood-paint ourselves.
